Professional Summary

Software Engineer with 3+ years of experience building enterprise and full-stack applications using Java, Spring Boot, React, REST APIs, SQL, Hibernate, and Oracle. Currently working as an AI Engineer, developing RAG-based chatbots and document agents using OpenAI, LangChain, Python, pgvector, MCP, AWS, and Docker. Experienced in production troubleshooting, process automation, Agile delivery, and scalable application development.

Experience

LabVantage Solutions, Inc Kolkata, India
AI Engineer / Associate Software Engineer Sep 2023 – Present

- Developed and maintained enterprise **LIMS** applications, delivering **15+ feature enhancements** and improving usability and customer satisfaction by **30%**. Built full-stack functionality across React.js and Java-based backend services with Oracle database integration.
- Designed and implemented **RESTful APIs** using **Spring Boot**, enabling scalable backend services and seamless integration across enterprise application modules.
- Developing **RAG-based chatbots and document** agents to automate manual workflows within the LabVantage product using OpenAI and LangChain.
- Built document intelligence pipelines for **PDF/document ingestion, chunking, embeddings, vector retrieval, and reranking**, enabling context-aware responses using PostgreSQL/pgvector.
- Collaborated with DevOps to build **4 internal enterprise platforms**, streamlining workflows for **2000+ users** and reducing operational costs by **40%**.
- Automated installation and deployment workflows, reducing setup time from **10–12 hours to under 10 minutes**; resolved **35+ production issues** through root-cause analysis and contributed to Agile delivery, code reviews, testing, and production releases.

LabVantage Solutions, Inc Kolkata, India
Associate Solution Engineer Jan 2023 – Jul 2023

- Contributed production-level code to enterprise **LabVantage LIMS** modules and supported feature implementations.
- Integrated **10+ RESTful APIs** with frontend applications, improving responsiveness and user experience.
- Customized HTML reports and product labels to meet client-specific business requirements.
- Diagnosed and resolved **30+ configuration and functional issues**, reducing support escalations and improving usability.

Projects

SERBOSEVA | **AI Powered Home Services & Digital Solutions Marketplace** Live Website

- Architected and developed a production-ready full-stack marketplace serving **1000+ users**, connecting customers with **500+ verified professionals** across **210+ home and digital services** using **React.js, TypeScript, Node.js, Express.js, PostgreSQL, and Supabase**.
- Engineered **20+ RESTful APIs** and implemented secure authentication using **Firebase Phone OTP, Google OAuth, JWT**, and role-based authorization for Customers, Professionals, and Administrators.
- Integrated **AWS** (EC2, S3, Lambda, CloudFront, SES, RDS), **Razorpay**, AI-powered service recommendations, location-based search, notifications, chat, image uploads, and SEO to deliver a scalable cloud-native platform.
- Improved booking completion time by **60%** and page performance by **35%** through API optimization, efficient database design, responsive React interfaces, and frontend performance enhancements.

VChat | **AI-Enabled Real-Time Communication Platform** Live Demo

- Developed a full-stack real-time chat application using **React.js, Node.js, Express.js, MongoDB, and Socket.IO**, enabling one-to-one messaging, group chats, online presence, typing indicators, and real-time message delivery.
- Integrated **AI-powered features** including smart replies, multilingual translation, emotion detection, and conversation summarization, enhancing user experience and communication efficiency.
- Implemented secure **JWT authentication**, scalable REST APIs, media sharing, user profile management, and **WebRTC-based** audio/video calling for a secure and seamless communication platform.

Technical Skills

Programming Languages: Java, JavaScript (ES6+), TypeScript, Python, SQL
Frontend: React.js, Redux, HTML5, CSS3, Tailwind CSS
Backend: Spring Boot, REST APIs, Hibernate ORM, Node.js, Express.js
Databases: Oracle, PostgreSQL, pgvector, MySQL, MongoDB
Cloud & DevOps: AWS (EC2, S3, Lambda, CloudFront, SES, RDS), Docker, Jenkins, CI/CD, Git, GitHub
Tools & Platforms: LabVantage LIMS, IntelliJ IDEA, VS Code, JIRA, Confluence, Linux, Windows
AI & LLM: OpenAI API, RAG, LangChain, Agentic AI, MCP, Prompt Engineering, Embeddings, Vector Search, Reranking
AI Development Tools: GitHub Copilot, Cursor, ChatGPT, Claude, Gemini
Core Concepts: Object-Oriented Programming, Data Structures & Algorithms, SDLC, Agile/Scrum, System Design, Microservices

Education

Haldia Institute of Technology, Haldia — West Bengal, India
Bachelor of Technology in Computer Science Engineering — Aug 2019 – Aug 2023
CGPA: 9.23 / 10
